

Booklet Stitching Machine

The PB-100 stitching machine is a professional machine for stapling flat pads or saddle stapling folded booklets up to A3 (A2 folded).

It can be used as a single head unit or can be fitted with up to 4 heads for multiple simultaneous stapling using standard or loop staples.

The machine is capable of stapling up to 100 sheets of 80 gsm paper leaving a 'flat clench' finish.

In addition to the robust and well engineered construction the machine has been uniquely designed for the modern 'on demand' print room or finishing department with no adjustment necessary for thickness. The machine therefore requires very little training and is immediately easy to operate and set up for fast and accurate stapling of pads, headers, calendars and general documents.

Features

- Quality and robust European manufactured product
- Easy set up and immediate operation
- Fast and accurate for reliable 'on demand' production
- Flat pads or saddle stapling folded booklets
- Saddle stapling booklets up to A3 (A2 folded)
- Free standing 'hands free' foot pedal operated
- Up to four heads possible for multiple stapling
- Standard head up to 55 sheets (80gsm)
- High Capacity head up to 55-100 sheets (80gsm)*
- Minimum distance between heads 48mm
- Standard staple or Loop Staple
- Flat clench staple system
- No extra tooling required for standard or loop staples

*Maximum 2 heads with high capacity head fitted.

Specifications

- Electrics 230v/50Hz
- Speed 93/min
- Magazine capacity 300 staples
- Weight 33kg
- Dimensions 540 x 535 x 930mm
